IMPORTANT! PRE-PROCEDURE QUESTIONS FOR Clients PRIOR TO SCHEDULING PERMANENT COSMETICS

General Questions for all Permanent Makeup Procedures:

- Have you had permanent make up, previously? Y__ N__ If yes, I will need to know that you have not been tattooed with Premier True Concentrates between the years 2000 and 2004. If you have had permanent makeup previously, I will require written documentation from your previous practitioner that this product was not used. The Premier pigment described can trigger an allergic reaction. Y__ N__
- Are you Pregnant or nursing? Y__ N__ If so, please reschedule your appointment after your delivery and or nursing.
- Are you scheduled for or considering vision correction surgery? Y__ N__ If so, **No procedures** can be performed 1 month prior to laser surgery and three months after.
- Have you recently had facial surgery ~ Botox ~ fillers such as Restalyne, Sculptra, etc. ~ any type of lip augmentation? Y__ N__ If yes there may be a waiting period.
- Are you on Blood thinners such as Coumadin, etc. ~ Steroids such as Prednisone ~ Chemotherapy ~ Prophylactic Chemotherapy? Y__ N__ Medical clearance will be necessary.
- Are you on Accutane for treatment of Acne? Y__ N__ A waiting period of 1 year is necessary prior to permanent cosmetics.
- Do you have a heart valve replacement, stents, ~ Mitral Valve Prolapse ~ Rheumatic Fever or any heart condition? Y__ N__ If yes they may need to be pre-medicated.
- Are you pre-medicated prior to dental work? Y__ N__ If yes they may need to be pre-medicated.
- Have had an organ transplant? Y__ N__ If yes, you are not a candidate.
- Do you have a joint replacement? Y__ N__ If yes, you will require pre-medication and medical clearance.
- Are you an insulin dependent diabetic? Y__ N__ Medical clearance is required.
- Do you have any dermatologic disorders such as Shingles, Rosacea, Eczema, and Psoriasis and are they active? Y__ N__ Active? Y__ N__
If they are active they must wait until they have calmed down.
- Do you have any medical condition (or believe to have a medical condition) that has you presently in the care of a doctor? Y__ N__ If yes, you may need medical clearance.
- If you have had a previous permanent cosmetic procedure, please describe the color that is remaining so I will know whether you need a touch-up or correction.

- Do you plan on going on a vacation (in the sun) in the next 2 weeks? Y__ N__ If yes, you may need to reschedule and discuss sun protection options (hat, sunglasses and sunscreen).
- All permanent cosmetic procedures are multi-session processes. You are required to come back for at least one touch-up visit before it can be determined that your work is complete. Touch-up visits are scheduled in approximately six weeks to three months intervals.
- Be prepared for the color intensity of your procedure to be significantly brighter and/or darker as well as larger and sharper, than what is expected for the final outcome. It will take time for this transition, (1to 2 weeks for brows and eyeliner, six weeks for lips) based on how quickly the outer layer of your skin exfoliates.
- Since delicate skin or sensitive areas may swell slightly or redden, some clients feel that it is best not to make any social plans for a day or two following a procedure. Allow a minimum of 1 month healing from time of procedures for significant events. This reduces stress for all.
- Wear your normal lip or brow make-up and bring your lip or brow pencils to the clinic on the day of the procedure.

Eyebrow Procedures:

- How much hair do you have in your brow? _____
- Any eyebrow tinting should be done no sooner than 48 hours before or two weeks after the procedure.

Lips Procedures:

- Do you have a fever blister, at this time, and **have you ever had even one fever blister in your lifetime?** If you are having lip procedures and have **any** history of cold sores/fever blisters/herpes simplex, you will be required to contact your physician for Valtrex to **possibly** prevent such outbreaks. Many physicians prescribe 12 capsules of 500 mg. Valtrex. Your physician may prescribe that they be taken twice a day, two days before lip procedures and four days after. Be sure to ask for 24 to avoid 2 co-pays. This will include enough medication for your touch up visit.
- Do you want lip liner only or a liner with shading? _____

Eyeliner Procedures

- Do you wear false eyelashes or eyelash extensions? Y__ N__ If yes, they must be removed before eyeliner procedure. Reapply 2 weeks after final touch-up visit.
- Do you use Latisse®? Y__ N__ If yes, discontinue using at least 1 week prior to eyeliner procedure. Resume Latisse® 2 weeks after final touch-up visit.
- How wide do you wear your eyeliner? _____
- Any eyelash tinting or eyelash curling should be done no sooner than 48 hours before or two weeks after any permanent eye liner procedure.
- **Do not wear contact lenses during or immediately following the eyeliner procedure. Remember to bring your glasses!** You may resume wearing your contact lenses as soon as your eyes return to their pre-tattooed condition (no redness, swelling or bruising).

Camouflage Procedures:

- While these injected tones may initially simulate the exact color and tone desired, it will not always remain a perfect match. Injected tones are constant, while your own skin tones will vary depending on exposure to cold, heat, sun and circulatory changes. For example, if you tan your skin and had a scar camouflaged your surrounding skin will be darker in appearance than the treated area.
